What we offer

Authentic Handicrafted Crafts

Kalagya is a leading and prominent manufacturer of world-class naturally sourced, Handmade Indian Handicrafts for Home Décor. We have extensive and deep-rooted experience in carving and finishing the artworks, articles, and statues in Wood with natural, polished, painted, and with inlay work like MOP, glass, and stones. The pure silver metal works along with brass and copper including the work like metal cladding on wood. We also offer Indian/ Shrinathji Pichwai paintings on cotton, silk, wood, and canvas. All our wall art is extensively made by hand and showcases the fine work of Indian artistry. The metal inlay work is also a major part of our range of products. The statues evoke spiritualism through divine art.

At our art studio located on the outskirts of Udaipur, Rajasthan, highly skilled and accomplished artisans work with enthusiasm to create each artwork. What make us special is our years of expertise in naturally handmade artifacts and being the leading Indian Handicraft manufacturer. We, as a community of artisans, designers, sculptors, and metal smiths bring life to any handicraft we work on. Each of our artwork is uniquely made and has very minuscule chances of being replicas. Besides this, the strict quality control ensures that each handicraft is true to its value for our buyers.
